METALS CORP.

NEWS RELEASE

TRENCH METALS PLANS ADDITION OF HYDROGEN ENERGY DIVISION

Vancouver, Canada – November 21st, 2021 - Trench Metals Corp. (the “Company”) (TSXV: **TMC**, FWB: **33H2**) is pleased to announce that its board of directors has approved the establishment of a hydrogen energy division within the Company. The Company’s uranium assets have recently benefited from renewed market interest in green energy projects, and the board of directors will look to commit to the Company remaining on the forefront of emerging markets in the green energy sector.

Initially, the Company will look to staff the hydrogen energy division with third-party experts and advisors who can review and evaluate prospective opportunities in the sector. The Company intends that work of the division will initially be focused on seeking out and evaluating potential strategic acquisitions and opportunities for the Company to partner with existing industry participants. The Company will provide further information on staff of the division as new advisors are engaged and appointed.

About Trench Metals Corp.

Trench Metals Corp. is a mineral exploration company. We create value for our shareholders by engaging in promising mineral exploration opportunities. Our main goal is the advancement of various projects from discovery all the way to production. This vertically integrated strategy allows Trench Metals to achieve exceptional shareholder value through the entire life-cycle of the mining process.

Trench Metals Corp. has the right to earn a 100% interest in the Gorilla Lake Uranium Project. Gorilla Lake is located in the Cluff Lake area of Saskatchewan’s Athabasca Uranium district. The Athabasca District is home to the highest grade of uranium deposits in the world. It accounts for 18% of global uranium production. The Gorilla Lake Project comprises nearly 7000ha in the Northern Mining District of Saskatchewan near the Shea Creek uranium deposit.
