NEWS RELEASE

TRENCH METALS COMMENCES SUMMER 2021 EXPLORATION PROGRAM AT GORILLA LAKE URANIUM PROJECT, ATHABASCA, SASKATCHEWAN, CANADA

Vancouver, Canada – July 19th, 2021 - **Trench Metals Corp.** (the “Company”) (TSXV: **TMC**, FWB: **33H2**) is pleased to announce that, the Company’s summer exploration program will commence this week. The 2021 program will consist of geological mapping, surface sampling and short hole drilling utilizing back-pack drills, capable of reaching depths of up to 30 feet. The field crew will also be utilizing Radiation Solutions RS125 scintillometers to identify radioactive samples at surface. Exploration activity will be focused on targets identified on the shores of Gorilla Lake. Historic drilling in the area has demonstrated that rocks in the target area have been subject to several successive hydrothermal events. The Company will also be examining drill core for several pathfinder elements which were identified at the nearby Cluff Lake Mine.

Peter Born P.Geo., is the designated Qualified Person as defined by National Instrument 43-101 and is responsible for, and has approved, the technical information contained in this release.

About **Trench Metals Corp**

Trench Metals Corp. is a mineral exploration company. We create value for our shareholders by engaging in promising mineral exploration opportunities. Our main goal is the advancement of various projects from discovery all the way to production. This vertically integrated strategy allows Trench Metals to achieve exceptional shareholder value through the entire life-cycle of the mining process.

Trench Metals Corp. has the right to earn a 100% interest in the Gorilla Lake Uranium Project. Gorilla Lake is located in the Cluff Lake area of Saskatchewan’s Athabasca Uranium district. The Athabasca District is home to the highest grade of uranium deposits in the world. It accounts for 18% of global uranium production. The Gorilla Lake Project comprises nearly 7000ha in the Northern Mining District of Saskatchewan near the Shea Creek uranium deposit.
