### NEWS RELEASE

## TRENCH METALS OUTLINES SUMMER 2021 EXPLORATION PROGRAM ON IT'S GORILLA LAKE URANIUM PROJECT, ATHABASCA, SASKATCHEWAN, CANADA

*Vancouver, Canada – June 22<sup>nd</sup>, 2021* - **Trench Metals Corp.** (the “Company”) (TSXV: **TMC**, FWB: **33H2**) is pleased to announce that, in collaboration with Grander Exploration, the Company has designed a targeted work program for the summer 2021 exploration of the Gorilla Lake Uranium Project. The program will focus primarily on the Gorilla Lake grid, identified by previous uranium exploration. The program will consist of Shaw drilling of prospective radioactive anomalies as well as surface investigation with advanced Scintillometers, such as the Radiation Solutions RS125, which provides accurate real time analysis of gamma radiation, a product of Uranium decay. Shaw drills are man-portable and have an effective range of up to 30ft. The Company is in the final stages of fine tooling the exploration targets and expects to announce mobilization dates in the near term.

Peter Born P.Geol., is the designated Qualified Person as defined by National Instrument 43-101 and is responsible for, and has approved, the technical information contained in this release.

#### **About Trench Metals Corp**

**Trench Metals Corp.** is a mineral exploration company. We create value for our shareholders by engaging in promising mineral exploration opportunities. Our main goal is the advancement of various projects from discovery all the way to production. This vertically integrated strategy allows Trench Metals to achieve exceptional shareholder value through the entire life-cycle of the mining process.

**Trench Metals Corp.** has the right to earn a 100% interest in the Gorilla Lake Uranium Project. Gorilla Lake is located in the Cluff Lake area of Saskatchewan’s Athabasca Uranium district. The Athabasca District is home to the highest grade of uranium deposits in the world. It accounts for 18% of global uranium production. The Gorilla Lake Project comprises nearly 7000ha in the Northern Mining District of Saskatchewan near the Shea Creek uranium deposit.
